

Uncover Energy Cost Leakage

Automate energy management and ESG reporting with Etainabl. The result: less manual work, stronger compliance, and lower energy cost and risk.

Etainabl is a tool that enables your business to automate data collection and manage individual meters. You can then assess their performance and identify trends across your whole portfolio.

Energy Optimisation

- ✓ Access all your energy data within a centralised platform
- ✓ Accurately bill tenants according to their usage
- ✓ Identify cost savings and unusually high energy usage

Portfolio Management

- ✓ Remove the hassle of manual meter reads
- ✓ Collect data from multiple meters and sites
- ✓ Access data from any UK electricity or gas meter

Bill Validation

- ✓ Ensure smart data matches the billed data
- ✓ Informed of unusual patterns or estimated meter reads
- ✓ Notified of inactive contracts to avoid high charges
