

Solar-as-a-Service for Businesses

Reduce your energy costs, meet your sustainability targets and protect your bottom line, all with zero upfront investment.

No Capital Required, Savings From Day 1.

Access a fully installed, professionally managed solar system. No capital outlay, no maintenance burden, no risk, but all the same benefits. Reduce your reliance on the grid, your energy costs and your carbon footprint.

- ✓ We own the installations
- ✓ We assume the financial risk
- ✓ You pay a fixed rate per kWh of the energy used

Fixed Energy Rates

Guaranteed pricing for 10+ years.

Zero Upfront Cost

No capital or operational expenses for your business.

Flexible Terms

No commitment on usage and transferable if the site is sold.

We offer a free, no-obligation survey to assess how solar could work for your business. With Solar-as-a-Service, we make renewable energy and its benefits accessible to businesses without the upfront cost or operational burden.
